## WE PUT AT YOUR DISPOSAL

We offer over **45 years** providing solutions to demanding customers who require very specific characteristics and behaviour according to the sector and their needs.

## WHEREVER YOU GO

We are committed to working closely with our customers, providing them with **exceptional service** and offering an advanced and extensive range of products with very competitive prices.

## HIGH STANDARD OF QUALITY AND SERVICES

We only use materials provided by companies who offer the very **highest quality**, suitable and certified products. Our success is due to top quality assurance: ISO 9001, SGS, UL, TÜV, ISO 14000 and Ohsas 18001.

## CUSTOMIZE TOTALLY YOUR ENCLOSURE

Our production systems can give custom-made solutions **on demand**. Every colour from RAL chart is available to be personalized. A variety of protection standards thanks to our own painting facilities.

# HYGIENIC DESIGN ELECTRICAL ENCLOSURES

Examples

**We give a Solution  
Complete to Sensitive Zones  
of Contamination**

Stainless steel wall enclosure Hygienic Design Electrical Enclosure Luxor Serie, specially designed for the food processing industry, food packaging, ...

An integral sloping roof offers additional protection and leads to self-draining of liquids.

The HD range is the ideal solution for food processing industry and beverage industries, biotechnical laboratories and pharmaceutical plants.

# JUNCTION BOX FRESH GEO SERIES IP66

Example

## Specially Designed for Placing Push-Buttons

Fresh Geo Series push-button and junction boxes, elegant watertight boxes made wholly in finely polished AISI 304L EN-14306 stainless steel available in plain or bored covers (22.5).  
Specially designed for placing push-buttons.

[FOR MORE INFORMATION CLICK HERE](#)

## ADVANTAGES

- Unlimited options.
- Supplied with protective film which prevents scratches and abrasions during handling.
- The manufacture of the stainless steel monobloc allows sealing and ensures maximum resistance.
- Water channel to prevent liquids coming into contact with the polyurethane seal and hidden hinges giving perfect sealing.
- Delvalle supplies any measurements required including custom built holes and cut outs both for the door and enclosure.
- Temperature resistant: -40°C +100°C (short time +160°C).
- Option silicone gasket: from -60°C to +180°C (short time up to +350°C).
- Up to IP67 or IP69K.

## APPLICATIONS

Especially designed and officially approved for food, chemical, pharmaceutical, transformer and telecommunication industries for use both inside and outside, due to the advantages of high resistance to chemical agents and durability.

## OPTIONS

- Custom made based on your needs.
- IP67 or IP69K according IEC EN 62208 and EN 60529.
- Manufactured in stainless steel AISI 316L EN 14404.
- Metal legs.
- Unloosable screws.
- Finished in textured paint RAL on request.
- Mounting plate insulator (bakelite) or painted steel.
- EMC version according to EEC 89/336 of electromagnetic compatibility.
- We have hygienic glands on request.
- Option painted galvanized steel finish in RAL 7035 or another color.

# JUNCTION BOX FRESH GEO SERIES IP66

## NORMATIVE

- IP66 Norm IEC 60529 (IP67 on request).
- DIN 40050-9 - IP69K extend IEC 60529.
- DIN EN ISO 14159 Machine safety – hygiene requirements pertaining to the design of machinery.
- Machinery Directive 2006/42/EC. Food machinery and cosmetic or pharmaceutical production.
- EHEDG Guideline Hygienic Design doc.13 machinery for open processes.
- DIN EN 1672-2-2005 for food industry machinery.
- Maximum IK10 resistance Norm IEC 62262.
- Manufactured following EU low voltage ruling 2006/95/CE.
- RoHS Directive 2002/95/EC compliant.
- UL approval Nema 4x, 12, 3r, 1. N° File E342220.
- Maximum voltage 1000 V.
- Temperature resistant: -40°C +100°C (short time +160°C).
- Option silicone gasket: from -60°C to +180°C (short time up to +350°C).

# ELECTRICAL ENCLOSURE FRESH TRIBECA SERIES IP66

Example

## Special Enclosure for Food Industry

Electrical Fresh Tribeca Series enclosure with a large capacity, specially designed for the food industry.

No openings, hinges, where bacteria could lie. Easy opening by rotating handle and four point lock, easy placement on the floor; flexible, maximum working width.

Moreover the inclination of the roof prevents objects being placed on the surface and our vertical electro polished finish helps repel liquids and prevent virus and bacteria building up on the surface.

→ [FOR MORE INFORMATION CLICK HERE](#)

# ELECTRICAL ENCLOSURE FRESH TRIBECA SERIES IP66

## APPLICATIONS

Especially designed for the food industry and sterile rooms, wineries, dairies and take away food outlets or any other place where cleanliness is essential as well as total absence of dust, dirt and bacteria.

## NORMATIVE

- IP66 (IP55 two doors) by request. Norm IEC 60529.
- DIN 40050-9 - IP69K extend IEC 60529.
- Maximum IK10 resistance Norm IEC 62262.
- EC 1935/2004 rule compliant for materials intended to come into contact with food.
- DIN EN ISO 14159 Machine safety – hygiene requirements pertaining to the design of machinery.
- Machinery Directive 2006/42/EC (previously 89/37/EC) Food machinery and cosmetic or pharmaceutic production.
- EHEDG Guideline Hygienic Design doc.13 machinery for open processes.
- DIN EN 1672-2-2005 for food industry machinery.
- Manufactured following EU low voltage ruling 2006/95/CE.
- Compliant RoHS Directive.
- UL approval Nema 4x, 12, 3r, 1. N° File E342220.
- Maximum voltage 1000V.
- Temperature resistant: -40°C +100°C (short time +160°C).
- Option silicone gasket: from -60°C to +180°C (short time up to +350°C).

## OPTIONS

- Custom made based on your needs.
- IP69K according EN 60529.
- Option painted galvanized steel finish in RAL 7035 or another color.
- With a choice of two doors (from 1200 mm width).
- Plinths at base.
- Castors.
- Metal legs.
- Transparent polycarbonate door or transparent safety glass door (no IP69K).
- Manufactured in stainless steel AISI 316L. EN 14404.
- Mounting plate insulator (bakelite) or stainless steel.
- We have hygienic glands on request.

## ADVANTAGES

- Supplied wrapped in protective film which prevents scratches and abrasions during handling.
- The monobloc manufacture gives total sealing and maximum resistance.
- No openings where bacteria could lie.
- With electro-polished finish that helps to slide the liquid and waterproof seal that prevents dirt and bacteria deposits.
- 100% stainless steel, from handle to opening system.
- 120° door opening. Standard opening to the left. Specify if you need opening to the right.
- Standard electrical panel and handle lock with four locking points and concealed stainless steel hinges.
- Delvalle supplies any measurements required including custom built holes and cut outs both for the door and enclosure.
- Distributed load 600 Kg.

# JUNCTION BOX HYGIENIC GEO SERIES IP66

WITH SILICONE GASKET

Example

The sides have an inclination of 3°

## ADVANTAGES

- Supplied with protective film which prevents scratches and abrasions during handling.
- The manufacture of the stainless steel monobloc allows sealing and ensures maximum resistance.
- Water channel to prevent liquids coming into contact with the polyurethane seal and hidden hinges giving perfect sealing.
- Resistant seal to temperatures from -60°C up to +200°C.
- Captives screws.
- Finished in textured paint RAL on request.
- Up to IP69K.

## Strength, Durability and Long Life

Hygienic Geo Series push-button and junction boxes, elegant watertight boxes made wholly in finely polished AISI 304L EN-14306 stainless steel available in plain or bored covers (22.5). Specially designed for placing push-buttons.

→ [FOR MORE INFORMATION CLICK HERE](#)

## APPLICATIONS

Especially designed and officially approved for food, chemical, pharmaceutical, transformer and telecommunication industries for use both inside and outside, due to the advantages of high resistance to chemical agents and durability.

## OPTIONS

- Custom made based on your needs.
- IP69K according IEC EN 60529.
- Manufactured in stainless steel AISI 316L EN 14404.
- Metal legs, unloosable screws.
- Transparent polycarbonate door or with tempered glass.
- Mounting plate insulator (bakelite) or painted steel.
- EMC version according to EEC 89/336 of electromagnetic compatibility
- We have hygienic glands on request.
- Option painted galvanized steel finish in RAL 7035 or another color.

# JUNCTION BOX HYGIENIC GEO SERIES IP66

## NORMATIVE

- IP66 Norm IEC 60529 (IP67 on request).
- DIN 40050-9 - IP69K extend IEC 60529.
- DIN EN ISO 14159 Machine safety – hygiene requirements pertaining to the design of machinery.
- Machinery Directive 2006/42/EC. Food machinery and cosmetic or pharmaceutical production.
- EHEDG Guideline Hygienic Design doc.13 machinery for open processes.
- Maximum IK10 resistance Norm IEC 62262.
- DIN EN 1672-2-2005 for food industry machinery.
- Manufactured following EU low voltage ruling 2006/95/CE
- RoHS Directive 2002/95/EC compliant.
- UL approval Nema 4x, 12, 3r, 1. N° File E342220.
- Maximum voltage 1000V
- Temperature resistant: -40°C + 100°C (short time + 160°C).
- Option silicone gasket: from -60°C to + 180°C (short time up to +350°C).

# ELECTRICAL ENCLOSURE HYGIENIC TRIBECA SERIES IP66

WITH SILICONE GASKET

Examples

**Monobloc Manufacture Gives Total Sealing and Maximum Resistance**

Electrical Hygienic Design Tribeca Series enclosure with a large capacity, specially designed for the food industry. No openings, hinges, where bacteria could lie. Easy opening by rotating handle and four point lock, easy placement on the floor; flexible, maximum working width. Moreover the inclination of the roof prevents objects being placed on the surface and our vertical electro polished finish helps repel liquids and prevent virus and bacteria building up on the surface.

[→ FOR MORE INFORMATION CLICK HERE](#)

## APPLICATIONS

Especially designed for the food industry and sterile rooms, wineries, dairies and take away food outlets or any other place where cleanliness is essential as well as total absence of dust, dirt and bacteria.

# ELECTRICAL ENCLOSURE HYGIENIC TRIBECA SERIES IP66

## ADVANTAGES

- Supplied wrapped in protective film which prevents scratches and abrasions during handling.
- Resistant seal to temperatures from  $-60^{\circ}\text{C}$  up to  $+200^{\circ}\text{C}$ .
- The monobloc manufacture gives total sealing and maximum resistance.
- No openings where bacteria could lie.
- With electro-polished finish that helps to slide the liquid and waterproof seal that prevents dirt and bacteria deposits.
- 100% stainless steel from handle to opening system.  $120^{\circ}$  door opening. Standard opening to the left.
- Specify if you need opening to the right.
- Standard electrical panel and handle lock with four locking points and concealed stainless steel hinges.
- Delvalle supplies any measurements required including custom built holes and cut outs both for the door and enclosure.
- Distributed load 600 Kg.
- Captives screws.

## OPTIONS

- IP69K protection.
- Option painted galvanized steel finish in RAL 7035 or another color.
- Custom made based on your needs.
- With a choice of two doors (from 1200 mm width).
- Plinths at base. Castors. Metal legs.
- Clear polycarbonate door or tansparent safety glass door (no IP69K).
- Manufactured in stainless steel AISI 316L. EN 14404.
- Mounting plate insulator (bakelite) or stainless steel.
- We have hygienic glands on request.

## NORMATIVE

- IP66 (IP55 two doors) by request. Norm IEC 60529.
- DIN 40050-9 - IP69K extend IEC 60529.
- Maximum IK10 resistance Norm IEC 62262.
- EC 1935/2004 rule compliant for materials intended to come into contact with food.
- DIN EN ISO 14159 Machine safety – Hygienic requirements pertaining to the design of machinery.
- Machinery Directive 2006/42/EC (previously 89/37/EC) Food machinery and cosmetic or pharmaceutical production.
- EHEDG Guideline Hygienic Design doc.13 machinery for open processes.
- DIN EN 1672-2-2005 for food industry machinery.
- Manufactured following EU low voltage ruling 2006/95/CE.
- Compliant RoHS Directive.
- UL approval Nema 4x, 12, 3r, 1. N° File E342220.
- Maximum voltage 1000V.
- Temperature resistant:  $-40^{\circ}\text{C}$  +  $100^{\circ}\text{C}$  (short time +  $160^{\circ}\text{C}$ ).
- Option silicone gasket: from  $-60^{\circ}\text{C}$  to +  $180^{\circ}\text{C}$  (short time up to +  $350^{\circ}\text{C}$ ).

# TERMOELECTRIC HYGIENIC SERIES IP67

Example

## Thermoelectric Cooler Optimized for Applications in Hygienic Areas

The thermoelectric hygienic work with the innovative Peltier-Technology, offering compact, dependable, power-saving air conditioning 50 W.

The Peltier-Technology permits the use in any position, high degree of protection for outdoor use in bad environments and also for example a mobile use in high vibration application.

The Peltier-Technology works without any compressor, cooling liquid or filter mat and is nearly maintenance-free. The robust design with the heatsink made of aluminum and the stainless-steel cover on the outside makes it perfectly suitable for every sophisticated application.

[FOR MORE INFORMATION CLICK HERE](#)

## FEATURES

- Thermoelectric cooler optimized for applications in hygienic areas.
- Approved materials: stainless steel AISI 304LV2A, anodized aluminium.
- Plain and rounded transitions and edges.
- Easy to clean due to large distances.
- Special silicone seal.
- Degree of protection IP67.

## TECHNICAL SPECIFICATIONS

- Cooling capacity: 50 W.
- Operating voltage: 24 V DC.
- Amperage: 2,5 A.
- Operating temperature: -10 to +60 °C.
- Degree of protection (outside): IP67.
- Approval: CE.
- Weight: 3,2 kg.

# METRIC STAINLESS STEEL CABLE GLANDS HYGIENIC SERIES IP68

Hygienic glands are fit for passing, pressing and fixing cables between two compartments such as junction boxes, electric enclosures or any cabinet where protection against dust, dirt or water is required.

Made in stainless steel, hygienic glands are a definite solution against dirt and germs. They are the only glands tested according to FDA and EHEDG standards. We have the widest range from M12 to M25 and the highest quality.

- Material: Stainless steel AISI303L (other materials on request).
- Thread: TPE according to FDA guideline 21 CFR 177.2600 (PG and NPT upon request).
- Protection:
  - IP68 (5 bar, 30 min) according EN 60529.
  - IP69K extend IEC 60529
- Temperature resistance:
  - -20°C to +100°C.
  - -40°C to +150°C short time.
- Applications: manufacturing food, clean room technology, biotechnology and chemical industry.
- Benefits
  - Smooth finish prevents harmful microorganisms sticking to the surface.
  - No threads are exposed. Cleaning of cable glands is easier, faster and less expensive compared to traditional stainless steel cable glands.
  - Reliable strain relief due to strain relief element separated from grommet.
  - Suitable for high pressure steam cleaning.
