## WE PUT AT YOUR DISPOSAL

We offer over **45 years** providing solutions to demanding customers who require very specific characteristics and behaviour according to the sector and their needs.

## WHEREVER YOU GO

We are committed to working closely with our customers, providing them with **exceptional service** and offering an advanced and extensive range of products with very competitive prices.

## HIGH STANDARD OF QUALITY AND SERVICES

We only use materials provided by companies who offer the very **highest quality**, suitable and certified products. Our success is due to top quality assurance: ISO 9001, SGS, UL, TÜV, ISO 14000 and Ohsas 18001.

## CUSTOMIZE TOTALLY YOUR ENCLOSURE

Our production systems can give custom-made solutions **on demand**. Every colour from RAL chart is available to be personalized. A variety of protection standards thanks to our own painting facilities.

# STAINLESS STEEL SEISMIC BOX GEO

## SEISCORE SERIES

IP66

Examples

### More Resistance Tanks to Structural Reinforcement for Maximum Durability

Seismic-resistant electrical enclosure made of AISI 304L stainless steel - EN1.4306, finely polished and with IP55 or IP66 rating.

Its construction with structural and special reinforcements in the high-strength covers allows our enclosures to withstand heavy weights both in the structure and in the covers and to house heavy elements inside.

The boxes have been subjected to the most exhaustive tests, withstanding the harshest seismic activity tests, offering the customer significant protection in areas where seismic activity is possible. They can be installed outdoors.

The reinforced box is delivered with external plastic protection to prevent scratching during handling and installation of automatic devices inside the box, which can be easily removed once installed at the customer's premises.

### APPLICATIONS

Specially designed for areas where they will be subject to constant vibration or high seismic stress.

# STAINLESS STEEL SEISMIC BOX GEO

## SEISCORE SERIES

IP66

### ADVANTAGES

- Broad assembly area with great accessibility.
- Great strength as a whole.
- Great versatility, so it can be applied to almost any field.
- Delvalle supplies any measurements required including custom built holes and cut outs both for the door and enclosure.
- Distributed load 400 kg.

### OPTIONS

- Earthquake-resistant design, seismic testing under standar UNE EN 60068-3-3.
- Up to IP69K -DIN 40050-9.
- Special individual solutions.
- More resistance tanks to structural reinforcement for maximum durability.
- Stainless steel AISI 316L.
- Painted steel.
- Broad assembly area with great accessibility.
- Great strength as a whole.
- Standard with toggle clasp made of stainless steel.

### SEISMIC NORMATIVE

- NEBS GR-63-CORE
- United States (ASCE 7)
- European (EN 1998 - Eurocode 8)

### NORMATIVE

- IP66 (W) Norm IEC EN 62208 EN 60529.
- Maximum IK10 resistance Norm IEC 62208 and EN 50102
- Our electrical panels are built to CE standards 2014/35/UE.
- RoHs compliant.
- UL approval Nema 4x, 12, 3r, 1. N° File E342220.
- Maximum voltage 1000 V.
- Temperature resistant: -40°C +100°C (short time +160°C).
- Option silicone gasket: from -60°C to +180°C (short time up to +350°C).
