ALUMINIUM RESISTANCE HEATER

Examples heaters without fan

Examples heaters with fan

Full Range of Models

These heaters reduce temperature variation and avoid water condensation which may cause malfunction and corrosion of cabinets and boxes.

Heaters include PTC heating components. They are self-regulating and available up to 750 W. Their thermal output varies according to voltage.

You will get optimal heat dissipation thanks to small profiled aluminium cases covering our heaters.

They are used in traffic control systems, labeling machines, crane systems, telecommunications systems, as well as machines for food industry.
