UL RESISTANCE HEATERS MAX SERIES

WE PUT AT YOUR DISPOSAL

We offer over **45 years** providing solutions to demanding customers who require very specific characteristics and behaviour according to the sector and their needs.

WHEREVER YOU GO

We are committed to working closely with our customers, providing them with **exceptional service** and offering an advanced and extensive range of products with very competitive prices.

HIGH STANDARD OF QUALITY AND SERVICES

We only use materials provided by companies who offer the very **highest quality**, suitable and certified products. Our success is due to top quality assurance: ISO 9001, SGS, UL, TÜV, ISO 14000 and Ohsas 18001.

CUSTOMIZE TOTALLY YOUR ENCLOSURE

Our production systems can give custom-made solutions **on demand**. Every colour from RAL chart is available to be personalized. A variety of protection standards thanks to our own painting facilities.

UL RESISTANCE HEATERS MAX SERIES

Examples heaters without fan 10 / 20 / 30 / 45 W

Examples heaters without fan 60 / 75 / 100 / 150 W

Examples heaters with fan 130 / 250 / 400 W

NORMATIVE

- UL approved. File N° E351869
- Built under directive 2014/35/UE low voltage.

Simple and Quick Mounting

Temperature variations inside control cabinets and housings, especially when installed outside, lead to condensation of water and consequently to malfunction and corrosion. Through the use of enclosure heaters, temperature variations can be reduced and condensation of water avoided.

The heaters are equipped with a PTC heating elements and are self-regulating, operate without temperature control and have a thermal output that varies only little over a wide voltage range.

An optimum heat dissipation is achieved through profiled aluminum housings with small dimensions.

Heaters for thermal outputs of 130W to 1000W are equipped with fans in order to produce an air circulation.

➔ [FOR MORE INFORMATION CLICK HERE](#)

APPLICATIONS

Enclosure heaters are used in traffic light, traffic monitoring systems, ticket machines, crane systems, telecommunication systems as well as in machines for foodstuff industry.

ADVANTAGES

- Self-regulating PTC.
- Simple and quick mounting in DIN 35mm
- Attachment with clip on mounting rail.
- Optimized profile with improved heating power and smaller surface temperature.
- Alternative for voltage ranges 12-24v or 110-240V.
